Profiles & Competencies

View learner profiles and competencies. Link development needs to relevant learning and see what has been achieved or still needs development.

My Overview

Bring enrolled learning together in one place. See courses at a glance, including what is in progress and what is still to begin.

Catalogue

Explore available learning opportunities. Discover and add relevant courses to support a more self-directed learning journey.

Learner Groups

Connect relevant courses to specific audiences. Support targeted delivery of learning journeys and development opportunities.

LEARNER

Memotrainer

Learn. Repeat. Retain. Support long-term knowledge retention through personalised repetition and practice.

Adaptive Learning

Shape learning around the individual. Use progress, conditions and learning needs to guide the next relevant activity.

Activity Player

Bring activities together in one learner-facing experience. Engage with content, questions, multimedia and interactive elements.

BEHIND THE LEARNING EXP (BACK-END)

Smart Delivery

Release lerning by progress, time, rules, or trainer action.

Content Library

Create, integrate, reuse and manage learning content efficiently.

Blended Learning

Combine digital learning with workshops, events, and assignments.

API

Connection and data exchange with other systems.
